ITM is a worldwide leader specialising in the design, development and manufacture of undercarriage components and systems for earthmoving, construction, mining, agricultural crawler machines as well as specialised non-standard applications.

In response to the increasing demand for machines suitable to meet every specific application, ITM is proud to offer a wide range of components and system solutions for crawler machines used in the road building industry.

For many years ITM has been the supplier of choice to many Original Equipment Manufacturers of road building machines.

By the design and engineering expertise, extensive research and development, combined with the usage of the most advanced technologies, ITM develops innovative, reliable and competitive products, that meet the highest quality standards.

The Customer is ITMs focus: through a combination of localised manufacturing and a distribution network that covers most of the world, the ITM Group supports its customers through its proximity to them and its continuous monitoring of their needs.
